Subject: Letter of Recommendation

As a DOD Prime contractor, our mission-critical tactical communications require nothing but the best solutions. When looking to reduce risk for our MUOS Radio integration, we turned to W5 Technologies, Inc. for their Mighty MUOOS system.

The W5 team has demonstrated unparalleled expertise and dedication. Their subject matter expertise of MUOS technology is evident, and they quickly identified the issues we were facing. Thanks to their prompt and professional support, we were able to overcome significant integration hurdles and reduce integration time. The Mighty MUOOS product provides a reliable test asset, preparing us for final development stages and critical future development.

For any organization looking to enhance their MUOS Radio systems, W5 Technologies is the natural choice.
